FACULTY OF NATURAL SCIENCES AND MATHEMATICS

CHEMISTRY DEPARTMENT

PHD STUDIES

Course name	Writing and Publishing a Scientific Paper			
Course code	Course status	Semester	Hours of instruction	ECTS
DHEM23PONR	required	V	0+25	30
Teacher(s)	Mentor/Potential mentor			

Prerequisite course(s)	Entry requirements
/	/

Course goals			
Enabling students to communicate and disseminate in the field of professional and scientific chemical knowledge with colleagues, the wider scientific community, and society. Enabling students to analyze, discuss, and present their own results obtained on the basis of research work. Systematization and unification of achieved results by writing a doctoral dissertation.			
Learning outcomes			
The student has the ability and experience to publish, present, and communicate scientific research results to the professional and general public.			
Course content			
Processing and interpretation of results. Writing a scientific paper. Stages of publishing a scientific paper.			
Teaching methods			
Consultative teaching, mentoring, laboratory work, writing a scientific paper			
Books and other learning materials			
Original and reviewed scientific papers, monographs, and scientific books in the chosen field			
Course activities and grading method			
<i>Writing and publishing a scientific paper</i> is evaluated descriptively: passed / failed, based on:			
Published scientific paper(s)			
Additional course notes			
Name of the teacher who prepared this form
